Compliance certificate

All our Glass & Hardware Products are manufactured according to the Australian Standards n complied by the applicable consumer laws of Australia. Our glass products range from 3mm, 4mm, 5mm, 6mm, 8mm, 10mm, 12mm, and 16mm (Toughened &/or Laminated) are manufactured and distributed by local companies which are distinguished by quality controlled process that is based on a “hands-on” approach to assembly, Inspections and testing. This assures you of a finished product that will remain beautiful & function properly, for years to come. Quality materials are an important part of the difference.

With our hardware we use solid brass /stainless steel so durability is never in question. Unlike lesser grade hardware made from cheap cast n plated material, our hinges, knobs, glass clamps, brackets and screws run little risk degradation or discoloration found in inferior brands. We are proud of our products & back them in full confidence that you will enjoy them for a long time. The combination of workmanship and aesthetics is unsurpassed, and will enhance the design and performance of Frameless, Semi frameless or Standard Framed Shower enclosures.
